Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 C.F.R. §§1.51(b), 1.56, 1.97 and 1.98, Applicants herewith draw the Patent Office's attention to the documents that are listed on the attached Form PTO/SB/08A.

Applicants respectfully request that each of these documents be considered, made of record herein, listed on a "Notice of References Cited" to be issued in this application and printed on any patent that may issue from this application. Applicants also request that a copy of the attached Form PTO/SB/08A, initialed by the Examiner, be returned to Applicants' attorney together with the next communication indicating that these documents have in fact been considered.

Of the documents listed on the attached Form PTO/SB/08A, the first three United States documents have been cited in the last Office Action issued with respect to the co-pending companion application no 10/032,372. The remaining US documents and all the foreign patent documents all pertain to powder coating compositions and methods. Typically these materials are thermosetting materials which cure or cross-link upon application to a substrate and/or exposure to thermosetting conditions. Such materials also typically include any number of additional ingredients needed for cure, environmental stability, etc. They are not believed relevant to the present claims and certainly not to the polymer compositions incorporating the antimicrobial additives of the present application.
